

## Lucrari publicate in reviste cotate ISI

-2012-

1. Codină G.G., Mironeasa S., Mironeasa C., Popa C.N., Tamba-Berehoiu R., 2012, Wheat flour dough Alveograph characteristics predicted by Mixolab regression models, J.of the Science of Food and Agriculture, [Vol.92, Issue 3, ps 638–644](#)
2. Csutak,O., T.Vassu, I.Sarbu, I.Stoica, P.Cornea, 2012, Antagonistic Activity of Three Newly Isolated Yeast Strains from the Surface of Fruits, in Food Technology and Biotechnology (online first)
3. Dumbravă M., Dobrin I., Dobrinioiu R.V., Vișan L., 2012 – „The management of the factors which influence the quality parameters of wheat imposed by the processors in the milling and bakery connection”; Romanian Biotechnological Letters Vol. 17, nr.2.,p.7212-7217
4. Erny C, Raoult P, Alais A, Butterlin G, Delobel P, Matei Radoi F, Casaregola S, & Legras JL (2012): Ecological success of a group of *Saccharomyces cerevisiae* \* *Saccharomyces kudriavzevii* hybrids in wine making environment. Applied and Environmental Microbiology. vol. 78 no. 9 3256-3265.
5. [Flynn](#), K., [Wahnström](#), E., [Popa](#), M., [Quintas](#), M. A. C.,2012, Ideal skills for European food scientists and technologists: Identifying the most desired knowledge, skills and competencies, Innovative Food Science & Emerging Technologies (Sept.2012), [doi:10.1016/j.ifset.2012.09.004](#)
6. Ittu,M., , L.Cana, M.Ciuca, C.Voaides, P.Cornea, 2012, Phenotypic and marker assisted evaluation of aggressiveness toward wheat in some Romanian Fusarium populations, Romanian Agricultural Research, nr.29, p. 289-296,
7. Sicuia,O., Oancea,F., Constantinescu, F., Dinu,S., C.P.Cornea, 2012, *Bacillus* strains useful in improving vegetal mulch technology trough bio-activation, Rom.Biotechn.Letts., vol. 17,nr.5, p.7610-7619
8. Vamanu, 2012, *In vitro* antimicrobial and antioxidant activities of ethanolic extract of lyophilized mycelium of *Pleurotus ostreatus* PQMZ91109, Molecules, 17, 3653-3671
9. Vamanu, A. Vamanu, D. Pelinescu, S. Niță, N. Rusu, N. Popa, 2012, Influence of the culture medium composition on the exopolysaccharides synthesis by *Streptococcus sp.* II5 strain, Acta Alimentaria, 41, 1, 118–125
10. Vamanu,E., 2012, Antioxidant properties of polysaccharides obtained by batch cultivation of *Pleurotus ostreatus* mycelium, Natural Product Research, 1–4, iFirst online

11. Vamanu,E., 2012, Biological activities of the polysaccharides produced in submerged culture of two edible *Pleurotus ostreatus* mushrooms, Journal of Biomedicine and Biotechnology, Article ID 565974
12. Vamanu,E., D.Pelinescu, I.Avram, S.Nita, A.Vamanu, 2012, Study of PROBAC product influence on infant microbiota in a single-chamber colonic fermentation model GIS1, [Annals of Microbiology](#), iFirst online
13. Vamanu,E., D.Pelinescu, I.Marin, A.Vamanu, 2012, Study of probiotic strains viability from PROBAC product in a single chamber gastrointestinal tract simulator, Food Science and Biotechnology, 21, 4, 979-985
14. Vamanu,E., S.Nita, 2012, Antioxidant capacity and the correlation with major phenolic compounds, anthocyanin and tocopherol content in various extracts from the wild edible *Boletus edulis* mushroom, Journal of Biomedicine and Biotechnology, Article ID 313905
15. Vişan L., Dobrinoiu R., Dumbravă M, 2012 - „Study of chemical and aromatic composition in a Romanian wine Cabernet Sauvignon”; Publicare in Romanian Biotechnological Letters Vol. 17, nr.1,p.6855-6861
16. Voaides C., Dima R., 2012. The effect of nitrogen source on carotenoids production by *Rhodotorula sp.*, Rom. Biotechnol. Letts., ISSN 1224 – 5984, vol. 17, nr. 5, p. 7570
